On the loans control, the user can see all loans for which the planned return has not expired, most often these are books that are still with the user, meaning "In Progress", but you can also find completed books that the user returned before the time expired. This is key information that librarians use to prove why a book was returned before the end of the reading period.

Catalog of books

The screenshot displays the 'Scriptify' application interface. The sidebar on the left contains the following navigation options: Home page, Loans, **Catalog of books** (highlighted with a red box), Loan History, Statistics, Reservations, Book return, Scriptify Approved Program, and Log out. The main content area is titled 'Catalog of books' and features a search bar and a 'Sort by:' dropdown menu. Below these is a table with the following data:

	idBook	book_name	overview	author	genre
▶	2	Testna knjiqa 2	Opis testne knjiqe 2	I.I.Mazuranic	Roman
	7	Wim Hof	Wim Hof, poznat i ka...	Wim Hof	Auto Biografija
	23	Art of War	Manual on how to wa...	Sun Tzu	War
	24	Astrophysics	The newest revelatio...	Stephen Hawking	SCI-FI
*					

At the bottom right of the main content area, there are three buttons: 'Add' (green), 'Edit' (yellow), and 'Delete' (red).

Catalog of books allows librarians to oversee the whole collection of books in the library, also it allows them to sort by alphabetical order and to search for specific books, They can also add a new book clicking on the green button Add, edit a selected book on edit button and delete a selected book.

With this librarians are given control of I/O of the library with advanced filtering and searching.

History and Sanctions

Sanction

This uc allows librarians to see every loan that is overdue, completed, in progress, and sanctioned every single loan that is overdue the planned return date.

Issue a sanction

First name: David
Last name: Škudar
Book name: Art of War
Date of loan: 12. siječnja 2023.
Planned return: 16. veljače 2023.

Calculate the amount
Amount per day (€): 0.3
Count the days: 347
Calculate
Total sanction: 1041

Issue a sanction

User then can sanction the misconduct user by issuing a sanction when the user returns the book.

When the librarian has a user that wants to return the book, he uses this user control. This user control allows the librarian to set the loan status to completed meaning the user has returned the book and now librarian can issue a sanction for being late if the case allows to. In loan history the loan is presented as completed or in loans also as completed. Loan would appear in Loans as long as the planned returned date is not overdue.
